REMARKS

The present Reply is intended to be a full and complete response to the Office action dated December 13, 2006.

Disposition of the Claims:

Claims 1-20 are currently pending in the application. Claims 1-7, and 13-20 have been rejected under 35 USC 103(a) as being unpatentable over Erickson et al. (US 6,541,553) in view of Erickson (US 5,389,071) {in each instance, "Erickson" is the same inventor as the sole inventor, Erikson, of the present application}.

Claims 8-12 have been objected to for depending on a rejected claim, but otherwise have been indicated as allowable.

Claim 13 has been amended to correct a grammatical error.

Remarks Regarding Rejection and the Declaration:

Regarding Examiner's rejection under 35 USC 103(a), Applicants provide herewith a 37 CFR 1.132 declaration by the instant inventor that he, James R. Erickson, invented and conceived the subject matter in US 6,541,553 that is recited in claims 1-7 and 13-20 of the present application. As a result, the applicability of US 6,541,553 as prior art has been obviated (please see MPEP 716.10). In view thereof, Applicant's respectfully submit that claims 1-20 should now be allowed.
